

What is Federated Search?

Federated Search offer a consolidated search environment for information resources, helping users find the information they need quickly and effectively.

Why Federated Search?

Federated Search:

- Streamlines the discovery process by presenting users with content from multiple information providers in one clear, familiar user interface
- Eliminating the need to learn different search methods and interfaces
- Retrieved results in a merged, de-duplicated list
- Increase use of collections

Why MuseGlobal?

THE MUSE DIFFERENCE	SEARCH ENGINES	MUSE CONTENT MACHINE
SINGLE CRAWL FOR ALL SOURCES	*	
MASSIVE CENTRAL INDEX	*	
SIMPLIFIED CONTENT STRUCTURE	*	
LIMITED SOURCE CONNECTIVITY	*	
SOURCES CAN INDEX INDEPENDENTLY		*
RESULTS FROM INDIVIDUAL SOURCES AS SOON AS THEY'RE AVAILABLE		*

About MuseGlobal

MuseGlobal is the world leader in delivering customizable content connector software that enables partners to deliver more unified sources of searchable content to their clients more rapidly and reliably than anyone else. **MuseGlobal** software and services enable any technology platform that delivers content to extend its ability to connect to the freshest content from any number of searchable sources. Through MuseGlobal's many business partnerships its content integration technology is deployed in thousands of organizations worldwide.

Major Partners:

Oracle - MuseConnect for Oracle Secure Enterprise Search uses MuseGlobal's world-leading content connectivity technology to extend the power of Oracle Secure Enterprise Search with a range of targeted, industry-specific data repositories and subscription services that complement its enterprise connectivity and search capabilities. Using the power of MuseConnect you can extend your access to key content sources that support enterprises in financial markets, legal, medical, education & research — all of them normalized and unified to be accessed with content sources already available through Oracle Secure Enterprise Search's interface.

Google - MuseConnect for Google Search Appliance (All Access Connector) — Developed and marketed in partnership with Adhere Solutions, the All Access Connector enables content from any number of enterprise, subscription and Web sources to be integrated rapidly into the Google Search Appliance. Instead of wrestling with any number of search solutions in the enterprise MuseGlobal can accelerate your ability to use the search interface that more people trust every day to deliver unified content where they actually use it.

Microsoft - MuseGlobal for Microsoft SharePoint™ Server — Thousands of companies use Microsoft SharePoint Server to help facilitate collaboration, implement business processes, and supply access to information that is essential to organizational goals and processes. MuseGlobal extends the power of SharePoint by enabling the rapid integration of content from any number of enterprise, subscription and Web sources to make SharePoint portals the most popular destinations for enterprise staffs. The value of your SharePoint solutions can be accelerated rapidly using MuseGlobal's ready-to-go unified content integration technology.
