The lectureship tour was organized by three institutions—Yonsei University, Korea Advanced Institute of Science and Technology (KAIST), and Pohang University of Science and Technology (POSTECH). I am very thankful to all the hosts at each institutions, namely Professor Kwan Soo Kim and Professor Woo-Dong Jang at Yonsei University, Professor Sukbok Chang at KAIST, and Professor Kyo Han Ahn and Professor Byeang Hyeon Kim at POSTECH. The lectureship tour at these institutions provided an excellent opportunity for me to be acquainted with many different professors who have been engaged in very productive discussions of research and networking.
